

Vertical balers

B-series B30 VD

HANDLING BULKY WASTE

The B30 VD is a flexible machine and can be used for waste handling in larger retail shops and different industrial companies.

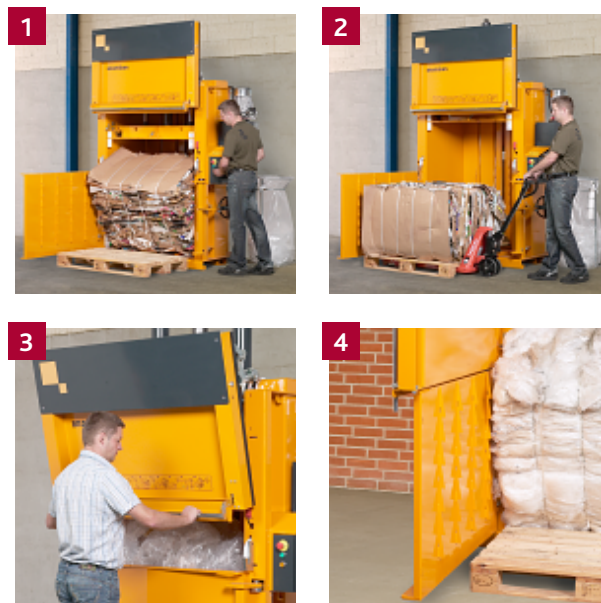

The wide filling opening makes it easy to fill in larger boxes and other bulky waste. Rows of efficient barbs inside the chamber keep down the waste material, even very expandable materials like plastic.

The B30 VD is easy to operate and has a full-indicator, which tells you when the chamber is full and ready for baling.

Technical specifications

Press force (t)	30
Power supply	3x400V 50Hz 16A
Motor (kW)	4.0
Noise level (dB)	62-64
Cycle time (sec)	34 / 51
Dimensions WxDxH (mm)	1765 x 1055 x 2920
Weight (kg)	1570
Filling opening WxH (mm)	1200 x 560
Filling height (mm)	1055
Chamber height (mm)	1560
Stroke (mm)	750
Bale size WxDxH (mm)	1200 x 800 x 950
Bale weight cardboard (kg)	280-350
Bale weight plastic (kg)	350-450

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** With the vertical door you obtain an ergonomic working posture. **4** Rows of barbs inside the chamber keep the waste material down.

- **Easy to replace strap rolls**
They are placed in front
- **Large filling opening**
For handling bulky waste
- **Automatic ejection**
Two-hand operation ejects the bale
