

Vertical balers

B-series B4

EASY TO FIT SMALL FOOTPRINT BALER

This B4 baler comes with nice extra features compared to other small footprint balers. With 4 tons press force, deep stroke, and efficient retainers you reach a high compaction ratio.

All steps of operation are made simple and safe, and the very low noise gives an optimal working environment.

An automatic full light indicator flashes when a bale is ready and prevents from overloading the chamber. You eject the finished bale by a safe and automatic two-hand operation.

Technical specifications

Press force (t)	4
Power supply	1x230V 50Hz 10A
Motor (kW)	1.5
Noise level (dB)	57-60
Cycle time (sec)	28
Dimensions WxDxH (mm)	940 x 715 x 1985
Weight (kg)	300
Filling opening WxH (mm)	770 x 460
Filling height (mm)	640
Chamber height (mm)	1000
Stroke (mm)	650
Bale size WxDxH (mm)	770 x 500 x 600
Bale weight cardboard (kg)	40-60
Bale weight plastic (kg)	50-70

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** The finished bale is ejected automatically by a safe two-hand operation. **4** A safe knife is mounted in front of the baler to help cutting straps.

- **Easy to connect**
Operates on single phase power supply.
- **Safe operation**
This baler complies with EU safety standard EN16500.
- **Front operated**
The B4 baler fits where you need it.
